

# Be Welcoming to LGBT Elders

Due to a lifetime of discrimination, LGBT older adults are more likely to hide who they are because they are afraid of mistreatment and isolation.

**It shouldn't be this way.**

Our training tells real stories about real people to help people in service roles be better-equipped to serve the special issues of LGBT older adults.

## SAGECARE Maine Certification Training Covers:

- ◆ The basics about what LGBT means
- ◆ Stories of LGBT older adults and how their lives are affected by societal attitudes and organizational structures that stigmatize and discriminate against them
- ◆ Skills/Policies that will enhance individual and organizational capacity to work more effectively with LGBT older adults

**WED., NOV. 28**  
**Ellsworth Public Library**
