The Department of Energy and Home Energy Assistance Weatherization Programs (DOE/HEAPWx) are used to install energy saving measures in HEAP eligible homes to conserve energy and heating costs.

A qualified Home Energy Auditor visits the home to do an assessment of the home’s energy use and loss, heating system efficiency, and air quality.

Once a home has been assessed and eligibility is confirmed, it is put on a priority list.

Eligibility: Must be HEAP eligible and own the home. Priority is given to households that have no heat during the winter heating season.

CHIP funds may also be used to repair or replace fuel oil storage tanks and/or chimney liners.

There are limited CHIP benefits of up to $400 for rental properties occupied by HEAP-eligible tenants.

For more information on how to access programs, please call 664-2424.

Aging in Place home repair provides repairs that are high impact safety items in an elder’s home (i.e. grab bars, safety checks, smoke alarms, and ramp repairs).

Eligibility: Senior citizens (over 55) and disabled individuals in Washington County only.
